14.00 – 14.20: Arrival and registration

14.20 – 15.35: Session 1 – Civil Law Panel

From International Climate Obligations to Domestic Legal Action: Civil and Public Law Perspectives

The panel will address:

1. Reading the Global Signals: How can courts and practitioners use international climate decisions and advisory opinions?
2. Making International Climate Law Bite at Home: How can global principles be translated into effective domestic civil and public law claims?
3. Proving the Climate Case: What evidence is needed to establish causation, responsibility and legal breach?

Structure:

The panel will be a “fireside chat”/ directed interactive panel, where there are no slideshows, but Marc is chairing and speaking, as well as directing some questions to specific panel members and more generally, so that everyone can chip in and contribute to those topics they have something to say and add.
